

Sultan Hakim Herryasan

Full Stack Web Developer

Mojokerto, Indonesia • +62-896-7795-0614 • herryans12@gmail.com

<https://sweetsya.github.io/> - <https://www.linkedin.com/in/sultan-herryasan-706b47176/>

Enthusiastic Full Stack Developer with a Bachelor's degree in Information Systems from Dinamika University. Skilled in building functional, user-centered web applications using modern technologies. Known for a problem-solving mindset and a continuous desire to learn. Driven by a long-term vision to contribute to impactful technologies – with a deep curiosity for space exploration and the future of humanity.

EXPERIENCE

Freelance Web Developer – Side Projects for Individuals and Companies

2023 – Present (+2 years)

Built and deployed several custom web applications tailored to client needs, ranging from business portals to service-based platforms. Took ownership of the full development cycle – including planning, design, backend/frontend development, and deployment.

Online:

- jadwal.iwash-indonesia.id – Booking and scheduling system for a car wash service
- borneokita.co.id – Online news website covering local and regional content
- portal.borneokita.co.id – Internal portal for managing news submissions and editorial workflow
- dpowerindonesia.id – Company profile for certification company
- zstowing.com – Company profile for a towing and roadside assistance business
- nusantaracert.com – Company profile with QR code validation certification

Offline:

- data.lajur24.info – Quick count and election monitoring website for the Ketapang region, West Kalimantan (currently offline)

S1 Information System at Dinamika University (Universitas Dinamika),

2020 – 2025 (5 Years)

Graduate of the Information Systems program, combining expertise in both technology and business. Experienced in application development, system analysis, and data management to support IT-based decision-making processes.

Contract Internship – PT Karunia Multifinance (Full Stack Web Developer)

Juni 2024 – April 2025 (10 Mos)

10-month contract internship at PT Karunia Multifinance with roles in web development and IT support. Responsibilities included developing the company profile website, building a SLIK recap application, maintaining the employee loan website, and providing support for network and IT infrastructure.

Participant of MSIB Batch 4 (Independent Study at Ruangguru – Backend Engineering)

Februari 2023 – Juli 2023 (5 Mos)

Participated in the MSIB Batch 4 program through an Independent Study with industry partner Ruangguru. Focused on Backend Engineering, the program covered topics such as data structures, data connectivity, clean code practices, and programming quizzes using the Go (Golang) programming language..
